## **Guidance Notes on the Use of The Standard e-TD (e-PG3D)**

These guidance notes have been prepared by the BPPA to assist a Procuring Entity in the preparation of e-Tender Document, using the Standard e-Tender Document (STD), for the procurement of Goods and related services. The STD are prepared in consistent with the Public Procurement Act 2006 and the Public Procurement Rule 2025 (PPR 2025), issued to supplement the ACT and Bangladesh e-Government Procurement (e-GP) Guidelines.

The use of STD (e-PG3D) applies when a Purchaser (the Procuring Entity) wishes to select a Tenderer (a Supplier) for the supply of Goods and related services under Open Tendering Method (OTM) through e-GP system. The Contract award is being determined on the basis of the lowest evaluated responsive Tender.

The Procuring Entity addresses its specific needs is through the information provided in the **Tender Data Sheet (TDS)** and the **Particular Conditions of Contract (PCC)** as well as in the detailed requirements of the procurement in the **Price Schedule**, the **Technical Specifications** and/or the **Drawings**.

Guidance notes in brackets and italics are provided for both the Procuring Entity and the Tenderer and the Procuring Entity should carefully decide what notes need to remain and what other guidance notes might be required to assist the Tenderer in preparing its Tender Submission so as to minimize an inept Tendering process.

STD (e-PG3D), provides all the information that a Tenderer needs in order to prepare and submit a Tender. This should provide a sound basis on which a Procuring Entity can fairly, transparently and accurately carry out a Tender e-evaluation process on the e-Tenders submitted by the Tenderers.

The following briefly describes the Sections of the STD (e-PG3D) and how a Procuring Entity should use these when preparing a particular e-TD.

### **Section 1. Instructions to Tenderer (ITT)**

This Section provides information on the e-lodgement, opening, and evaluation of Tenders and on the award of Contract. It specifies the instruction and procedure that govern the tendering process. This Section also contains e-GP system functions and the criteria to be used by the PE in order to determine the lowest evaluated responsive Tender and the qualifications of the Tenderer to perform the Contract.

### **Section 2. Tender Data Sheet (TDS)**

This Section provides the information that is specific to each object of procurement and that supplements the information or requirements included in Section 1: Instructions to

Tenderers. The Procuring Entity shall specify in the TDS only the information that the ITT instruct, be specified in the TDS.

### **Section 3. General Conditions of Contract (GCC)**

This Section provides the General Conditions of Contract that will apply to the Contract for which the e-TD is issued.

The GCC clearly identify the provisions that may normally need to be specified for a particular tendering process and need to be addressed through the PCC

### **Section 4. Particular Conditions of Contract (PCC)**

This Section provides clauses specific to the particular Contract that modify or supplement Section 3: General Conditions of Contract.

The Procuring Entity should include at the time of issuing the e-TDs all information that the GCC indicate shall be provided in the PCC.

### **Section 5. Tender and Contract Forms**

This Section provides the standard form for the e-Tender Submission Letter (**Form e-PG3D-1**), Tenderer information sheet (**e-PG3D-2**), Price and Delivery Schedule (**Form e-PG3D-3A & e-PG3D-3B**), Technical Specifications and compliance of Goods and related services (**Form e-PG3D-4**), Manufacturer's Authorisation Letter (**Form e-PG3D-5**) and Bank Guarantee for Tender Security (**Form e-PG3D-6**) to be submitted by the Tenderer.
